# Helpful Information

## Community Improvements / Do-It-Yourself Projects:

If you would like to help maintain, improve or even adopt a section of the Common Area around your home or in another area of the community, please check with Z&R. Let Mr. Patterson know the details of your plans and for what amount of time you are willing to help ... then a plan can be developed. Whether it be watering plant material, adding new rock/edging, installing new plants (Perennials) or shrubs, or just restoring/beautifying an area. There may be help with material costs (limited by the budget) if you can commit to the time and labor. Thanks.

### Interior maintenance:

If you have a question about a concern inside your home or you are unsure how to handle an emergency or unique situation, please call Z&R for help.

### Insurance:

If you may have an insured loss relating to your home, please contact Z&R. There is a deductible per claim which may be assessed to the Unit owner. All owners are responsible for securing insurance for personal property, loss of use, loss assessment, the HOA deductible and personal liability. This type of policy is often called a HO-6 Policy. For more information, call Z&R.

**Trash:** Pickup is Tuesday. Ensure all trash is placed inside your provided rear yard container in sealed bags.

Recycling must be placed into the specific toter.

If you have excess trash that will not fit in the rear yard container, you must take it to the toters at 2959.

If you have special items for pick up (furniture, appliances, etc.) please contact Z&R to inquire into removal fees and possible pick up. All items must be broken down completely to fit into the existing toters.

- Excess trash and pet waste must be placed in a sealed bag and then in the toters at the rear of Building 2959. Any problems with trash removal, contact Mr. Patterson.

# ACC & Rule Reminders

## Architectural Control Committee / Review:

If you plan on making any exterior change to your home, you must first submit your request (plan) to the HOA for review and approval before beginning any work. This includes changing any original or other structural item (windows, patio door, entry door, garage divider wall, landscaping in the rear patio area).

**This also applies to making any changes to the Common Areas adjacent to your home. If you wish to install or remove rock, mulch, etc., you must submit a request. The HOA has one type of rock and size that's approved to be used.**

Other items that require approval are satellite dishes, internet broadband dishes - their mounting location is very important and must be reviewed.

**NOTE: If an item is installed without approval, the owner will be subject to removal of the item and possible assessment fines - pending an after the fact submittal and review process.**

If you are unsure about an item, please ask first.

## Garages / Storage & Use:

All garages must be kept sufficiently clear to allow the parking of the proper number of designated vehicles, meaning one (1) car for a single stall garage or two (2) cars if you own two garages. Garages will not be used as a primary storage area, living area or for any other activity that would prohibit the parking of the proper number of vehicles. The community parking spaces were designed with the understanding owners must use their garages as a primary parking space first. Accordingly, garage owners must park their vehicle(s) in the garage. Owners may park a motorcycle or other currently registered/licensed vehicle (scooter, moped) in the garage in addition to a vehicle but both vehicles must be able to reasonably fit in the garage space. Any vehicle stored inside a garage must be kept in operating condition, have current registration, good tires, no broken glass, etc.

**Recycling** containers are picked up once each week. Ensure all recycling is placed in the special totes (there are 5) by 7:00 a.m. on the day of pickup.

### These items are OK (updated):
